Approved For Release 2001/08/30 : CIA-RDP67-00896R000100110017-4

14 November 1961

MEMORANDUM FOR: SA/AD/CR

SUBJECT : Intelligence Publications Index (IPI)

REFERENCE : MATS, USAF Secret Memo, to AFCIN-3D, dated 19 October 1961; same subject.

1. As requested, our comments regarding referenced Memorandum, which is returned herewith, are as follows:

- a. For a library of primarily finished intelligence publications, the subject and area breakdown in the IPI should prove adequate. However if the collection includes a significant percentage of raw information reports, the USIB Intelligence Subject Code (ISC) would be a better system.
- b. The NIE's and SNIIE's are indexed with very few exceptions in the IPI. Those that have been indexed in each issue are listed in the last section under the source name - "United States Intelligence Board".
- c. This office does not regularly receive publications of OSI/USAF. In those rare instances when we do get them, they are indexed in the IPI. I assume that such publications however are regularly disseminated to the CIA DD/P area and are not made available outside the Counter Intelligence areas.
